

# IML Drilling Needles

With special and improved surface coating

With immediate effect, the surfaces of IML drilling needles will be coated using a special procedure. This material improvement provides a longer service and useful life for your benefit.

## Product data

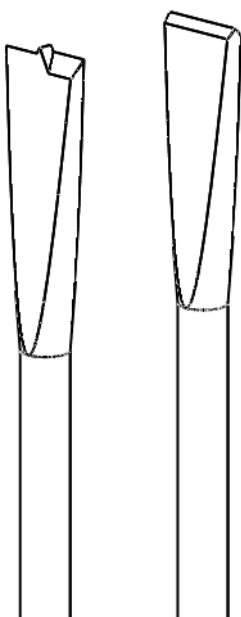

- With immediate effect, the surfaces of IML drilling needles are coated using a new technology.
- This method does not affect the properties, in particular the flexibility of the needle.
- The surface coating extends the serviceability of the needle while maintaining the same quality of measurement.
- The protection of the needles against chemical impacts is enhanced.
- Furthermore, the drilling needles have a lower friction coefficient to reduce shaft friction.
- The dimensions of the drilling needles remain the same, so you will not have to make any adjustments to your measuring instruments.

## Geometry

- Two geometries remain available:
  - Standard drilling needle
  - Drilling needle for pole inspections
- The standard drilling needle is used for tree inspections and the inspection of wooden constructions.
- The drilling needle for pole inspections is used **exclusively** for the inspection of wooden poles and should be used **only** for this purpose.

## Performance characteristics

- Doubled wear resistance
- Available for all IML drilling resistance measuring devices.

The illustration shows a standard drilling needle (left) and a drilling needle for pole inspections (right)

## Overview of IML drilling needles

<b>IML-RESI MD-Series</b>		
- Standard drilling needles (lot with 10 pieces)	Order No. 3100317	from 126,00 €
<b>IML-RESI PD-Series</b>		
- Standard drilling needles (lot with 10 pieces)	Order No. 3100322	from 145,00 €
- Drilling needles for pole inspections (lot with 10 pieces)	Order No. 3100329	from 120,00 €
<b>IML-RESI F-Series</b>		
- Standard drilling needles (lot with 10 pieces)	Order No. 3100316	from 116,00 €
- Drilling needles for pole inspections (lot with 10 pieces)	Order No. 3100319	from 96,00 €
<b>IML-RESI E-Series</b>		
- Standard drilling needles (lot with 10 pieces)	Order No. 30003900	from 170,00 €
<b>IML-RESI M-Series</b>		
- Standard drilling needles (lot with 10 pieces)	Order No. 3000316	from 126,00 €
<b>IML-RESI B-Series</b>		
- Standard drilling needles (lot with 10 pieces)	Order No. 3051280	from 170,00 €

For further prices and information regarding the length of the individual drilling needles, please see our current price list or visit our online shop at [www.iml.de](http://www.iml.de)

All prices are net prices and are quoted in EUR, exclusive of VAT as well as exclusive of shipping, packaging and insurance costs (in Germany). The General Terms and Conditions for delivery and payment of IML System GmbH apply. The prices remain valid until publication of a new price list.
