

## IML Tree Labels

Aluminium tree labels

IML tree labels are anodised aluminium plates that are laser inscribed to your requirements and are easy to read. Eloxal coating ensures longer service and useful life for your benefit.

### Product data

- The tree labels are made of scratch and weather-resistant anodised aluminium.
- The white laser inscription ensures good readability even in bright sunlight.
- The low weight of only 1.7 g ensures easy handling
- IML tree labels are available in black, red, green and blue

### Labelling according to your needs

- The tree labels can be individually inscribed by laser according to your requirements and even on both sides
- Continuously numbered and optionally with additional text
- Logo or symbol
- Data matrix or QR code
- Number ranges or Excel list

### Dimensions

- Diameter: 35 mm
- Thickness: 1 mm
- Mounting hole: 3 mm
- Text field: 30 mm x 25 mm

The illustrations show IML tree labels with numbering and text and with a QR code
